## Top Ten Reasons For Having A Web Site

- Ø Generate more prospects.
- Ø Convert more prospects into customers.
- Ø Maintain a closer relationship with existing customers and increase customer loyalty.
- Ø Maintain a relationship with the clients that move away each year.
- Ø Reduce customer service costs. (The website can answer most routine & technical inquiries.)
- Ø Greatly reduce printing costs by relying more on electronic media.
- Ø Provide specialized training to your employees and customers at significantly lower costs.
- Ø Maintain up to date information on your products and services.
- Ø Global Reach for products & services.
- Ø Share sensitive data with your clients on a secure basis (using a secure server) thereby reducing delivery & overnight charges.
